

**The R Group**  
ENERGY & CONSULTING

A Full Service  
Energy Consulting Firm  
Member of **ASHRAE**

# Remain Open Under Covid Pandemic Rework Ventilation & Mechanical System Reconfigurations

## Why Use The R Group?

- Stop Spread of COVID-19 in your Ventilation and AC Systems
- Protect your building from mutating virus changes of the Corona virus
- Service beyond expectations
- Over 30 years of experience
- Protect your Building and Tenants

## PANDEMIC CONVERSION for BUILDING VENTILATION

Over **97%** Effective Airborne Virus Removal

- Photocatalytic Oxidation (Titaniumdioxide)
- UV-C Medium Power Germicidal lamps
- Needle Point Bi-polarization Ionization
- Industry Proven Filtration for Airborne Virus
- Exhaust Air Re-entrainment & Containment
- Sealing & Pressurization Assessments
- Analyze Particle Flow Dynamics for Safety
- Electrical & Mechanical Engineering Services
- Revise System Manuals for Virus Conditions
- Maintenance & Operation Upgrades
- Lower your Chance of Lawsuits from Tenants & Corporations

## STOP CORONA YOUR GUIDE TO BUILDING SAFETY

Don't let the Corona airborne virus particules spread throughout your building equipment and on to your Occupants. 

## EXPERTISE YOU CAN COUNT ON

### KNOWLEDGE

Our team knows the aspects of thorough mechanical design and HVAC optimization as it relates to your type of building.

## YOUR NEXT STEPS:

To Obtain a Quote;

- + Provide Info on Mechanical Systems
- + Provide Architectural Plans or Schedule a Site Assessment
- + Receive your Free List of Measures
- + Receive Quote for Comprehensive Design Specification Report and Improved Engineering Plans
- + Our Five (5) Stage Comprehensive Methodology is Second to None on Addressing Airborne Infectious Virus Removal

## ACTIONS:

- + Locate cross flow leaks
- + Specify equipment changes
- + Upgrade to use the appropriate size filter (MERV-16) for COVID-19
- + Minimize impact to energy use
- + Identify your specific equipment required modifications to be free of COVID-19
- + Maintain tenant comfort in a safe building

## INCORPORATE 30 YEARS OF EXPERTISE INTO YOUR PROJECT

Use our expertise to make the right decisions on your projects.

Stop the spread of COVID-19 in you AC and Ventilation systems.

Install our most effective Comprehensive Ventilation Safeguards Against Coronavirus

Protect the Health and Safety of your building occupants.

We implement all Biological, Mechanical, Containment, Maintenance, and Assurance processes for sufficient mitigation of Covid-19 aerosol.
