

# REBATES & INCENTIVES

## AN OVERLOOKED PROJECT BENEFIT

OWNERS | CONTRACTORS | DEVELOPMENT MANAGERS

### OUR SERVICES

Energy savings projects around the United States always contribute to the bottom line of contributing revenue when peaking at comprehensive Return-On-Investments.

The R Group has been working with Utility companies on rebate savings calculations throughout the entire United States for over 30 years.

A winning proposition presents itself to all parties involved when Utility companies offer Rebates & Incentives to their customers through Public Benefit Programs.

Now contractors can leverage this often untapped capital in their offering to commercial customers of any size.

ENERGY & CONSULTING

### **CONTRACTORS**

Electrical, HVAC, and Plumbing contractors can now obtain benefits of rebates & incentives for their projects without the paperwork hassles.

### **OWNERS**

Most cases Owners can receive the rebates & incentives directly from their utility lowering the burden of overall project cost.

### **BUSINESS DEVELOPMENT MANAGERS**

Business Development Managers have a stronger value proposition when analyzing turnkey project cost to implementing energy savings measures.
